**Allconnect Announces Strong First Quarter Increases
in Revenue, Earnings and Customers**

ATLANTA, June 2, 2009 -- Allconnect, Inc. – the leading single-source provider of essential home services – reported a 38% increase in first quarter revenue over last year, a 30% increase in customers, and a 76% margin increase. The company, which has been privately held since its founding in 1998, is based in Atlanta.

Allconnect Chairman and CEO Mark Miller noted that EBITDA improved 88% over the previous year.

In addition, Miller announced that the company is increasing the number of employees in its Atlanta and St. George, UT, sales centers by 43%, hiring 120 new Home Services Consultants in upcoming months.

Other highlights from first quarter include a completely redesigned website - www.allconnect.com - that provides customers a host of easy-to-navigate tools that enable them to save money, and a significant amount of time, when comparing, connecting and managing household services like [home phone](#), [cable TV](#), [digital and satellite TV](#), [high speed Internet](#) and [home security systems](#). The new site launched on March 13.

With the increase in customers The Allconnect Marketplace has grown sales to over \$2.5 billion in home service products annually, representing 13,000 SKUs from a variety of service providers.

Miller continued, "Our business is growing because in challenging economic times our customers need us more than ever. People need the services we help them set up and manage. They need high speed internet to stay connected and informed. Home

entertainment is more important because the cost of going out might be more difficult to handle. Simply put, people can't afford not to be "plugged in" and they need a trusted advisor to help them stretch their hard earned dollars while getting the very best services for their home."

The company continues to enhance its Allconnect.com site. Enhancements implemented at the beginning of May include special promotions along with easier price and feature comparisons.

"Whether they're moving or simply want to find the best deal on home services, more and more customers are discovering that Allconnect is the place to get convenience, cost savings and choice." said Miller.

About Allconnect

Allconnect is the leading provider for connecting consumers with home services and utilities including gas and electric utilities, home phone service, cable, digital and satellite TV, high speed Internet and home security systems. Online or via phone, and at no charge, the company offers a convenient, simple, and objective one-stop source for comparing options and pricing, and/or transferring or establishing home services and utilities during a move. Founded in 1998, Allconnect has connected several million people through their partnerships with more than U.S. utility companies and a variety of service providers across the U.S. Allconnect is headquartered in Atlanta, Georgia, with offices in St. George, Utah, and employs more than 500 associates.
