FOR IMMEDIATE RELEASE

Allconnect Partnership with Realtors Strengthens Customer Service

ATLANTA, March 18, 2010 -- Allconnect – the leading comparison shopping and connections marketplace for essential home services – has signed a series of partnerships with real estate companies that will expand Allconnect’s customer reach by allowing realtors to provide their buyers with a summary of home service providers customized for their new address.

Though based in Atlanta, Allconnect’s office in St. George, UT, employs more than 250 area residents.

By accessing Allconnect’s ConnectMyBuyer.com, realtors can input a client’s address and create an individualized email or flyer that lists contact information for water, waste, gas, and electric services. It also includes a summary of the television, Internet, and phone service plans available for the specific location. New home buyers can compare providers, plans, and rates, with no obligation to purchase.

As of March 16, 2010, Allconnect’s real estate partnerships included Harry Norman Realtors, Keller Williams Platinum Partners, REMAX Executives, Meybohm, G&G Enterprises, RentLizard and HomeServices. Allconnect has found that agents in today’s challenging real estate environment are focused on incorporating up-to-date resources and technology to ensure that the home-buying process exceeds expectations. Allconnect’s ConnectMyBuyer.com allows them to differentiate themselves while also improving their customer’s experience.

“Allconnect is continually exploring ways to improve the customer experience,” said Mark Miller, Allconnect CEO. “We’ve exhaustively mapped service availability at over 110 million residences across the U.S. This comprehensive database and our easy to use front-end technology make it easy for realtors to exceed the expectations of their clients.

About Allconnect

Allconnect is the leading provider for connecting consumers with household services including [satellite TV](#), [cable TV](#), [Internet](#), [phone](#), [home security systems](#), and [natural gas](#) and [electric](#) utilities.
